SILENT HOIST GIANT FORK TRUCKS

CONTAINERIZATION SYSTEMS

40,000 to 100,000 lbs. CAPACITIES

PIONEERS IN CONTAINER HANDLING

BULLETIN NO. 825A SILENT HOIST & CRANE CO., BROOKLYN, N. Y. 11220
PRINTED IN U.S.A. CABLE ADDRESS: SILENTHOIST NEWYORK

Hoist Liftruck evolved from humble beginnings. In 1980, Marty Flaska started Forklift Exchange from his home in the western suburbs of Chicago, specializing in buying, selling and renting material handling equipment.

Over the next decade, the company grew, and in 1994, Flaska acquired the rights to build cushion tire forklifts from Brooklyn, New York-based Silent Hoist & Crane and transformed it into Hoist Liftruck Mfg. Inc.

Within a few years, Hoist Liftruck became the preferred vendor for high-capacity cushion tire forklifts. In 1998, the company moved its operations to its current location in Bedford Park, Illinois.

Centrally located in the United States, Hoist Liftruck is situated on 23 acres where more than 75% of the material on each vehicle is made in-house. The remaining material and components are supplied by reputable companies within a 200-mile radius of the factory, making each vehicle 100% made in the USA.

SERIES

LAZER
SERIES

These cushion tire lifttrucks are the ultimate combination of strength, maneuverability and comfort. Operating in industries such as steel, automotive and forging, these rugged vehicles offer compact chassis, as well as various mast and attachment configurations to work in any application.

FKS Series

CP: 23,000 - 100,000+ lbs. | 10.5 - 45+ tonnes

WB: 90 - 125 in | 2,286 - 3,175 mm

LC: 24 - 36 in | 609 - 914 mm

Titan Series

CP: 18,000 - 22,000 lbs. | 8 - 10 tonnes

WB: 80 in | 2,032 mm

LC: 24 - 36 in | 609 - 914 mm

Lazer Series (electric)

CP: 15,000 - 100,000+ lbs. | 6.5 - 45+ tonnes

WB: 75 - 92 in* | 1,905 - 2,337 mm

LC: 24 - 36 in | 609 - 914 mm

* custom sizes available on capacities above 40,000 lbs. | 18 tonnes

P SERIES

Whether handling 40 tons of project cargo or 20 tons of steel, the P-Series is built specifically to stand up to the demands of heavy industries. The solid, yet modular chassis, along with high quality components, make it the most dependable pneumatic lifttruck in the industry.

The rugged nature of the P-Series is complemented by advanced ergonomics and technology including air ride seat, electronic controls, all-around visibility and RemoteTech vehicle management system.

P-Series

CP: 22,000 - 100,000+ lbs. | 10 - 45+ tonnes

WB: 115 - 235 in | 2,921 - 5,969 mm

LC: 24 - 48 in | 609 - 1,219 mm

LCH & ECH SERIES

The LCH Series (loaded container handlers) and ECH Series (empty container handlers) are designed for optimal efficiency and safety. They feature excellent all-around visibility with an elevated cab position, angled overhead window and wide-view mast.

The unique mast design provides increased durability and reduced torsional stresses, while attachment options provide excellent serviceability and secure handling of empty and loaded ISO containers. The modular design provides fast and efficient transportation and serviceability, as well as reduced transportation costs.

LCH Series

CP: 4-6 high stacking

Containers: 20 - 53 ft. | 6 - 16 m

8'6" and 9'6"

up to 90,000 lbs. | 45 tonnes

ECH Series

CP: 3-8 + 1 high stacking

Containers: 20 - 53 ft. | 6 - 16 m

8'6" and 9'6"

Neptune

The Neptune Series handles boats with care, style and class. With capacities up to 55,000+ pounds, this sleek marina liftruck is perfect for a marina or boat storage facility of any size.

The spacious cab, air ride seat and tilt steering provide maximum comfort for the operator. Intuitive electronic joystick controls and superior visibility allow for safe and effortless handling, as well as fast cycle times.

The advanced rubber fork covering system securely grips boats with damage. Galvanization and three-step paint process provide maximum corrosion protection. The modular design provides fast and efficient serviceability, as well as reduced transportation costs.

Neptune Series

CP: 15,000 - 55,000+ lbs. | 7 - 25+ tonnes

WB: 94 - 170 in | 2,387 - 4,318 mm

LC: 96 in | 2,438 mm

POS. LIFT: up to 74 ft. | 22.5 m

NEG LIFT: up to 23 ft. | 7 m
